EXPERIENCE

Software Developer   03/2023 - Present
Wipro   *Bengaluru*

- Designed **modular components** for logistics tracking applications, which now handle over **500 unique shipments** daily while maintaining compliance with industry regulations without additional overhead costs incurred during development cycles.
- Developed and integrated the items page for manufacturing, enabling real-time updates and streamlined monitoring of production inventory, resulting in a 20% reduction in stock discrepancies and a 15% improvement in efficiency.
- Designed and Built the transportation page for the manufacturing section, improving logistics visibility and ensuring efficient tracing of goods, which led to a 25% reduction in transit delays and enhanced supply chain accuracy.
- Built intuitive visualization tools for real-time data insights, transforming raw data into actionable intelligence and improving decision-making speed by 30% for key stakeholders.
- Augmented data flow and reporting for the transportation and vendor pages, delivering actionable insights that reduced delays in supply by 20% and strengthened vendor relationships, improving on-time deliveries by 15%.

Full Stack Developer   08/2022 - 03/2023
Blobcity iSolutions pvt ltd   *Remote*

- Spearheaded the enhancement of the **Starbucks India** Dashboard page by integrating real-time data insights and establishing backend-to-frontend communication that improved customer engagement metrics, resulting in a 25% increase in active user sessions.
- Revamped the ordering cart and payment gateway pages, optimizing the checkout process to reduce cart abandonment by 18% and increase successful transactions by 25%.and **Gravatar** functionality, Boosting user features.
- Deployed advanced analytics tracking on the ordering cart, enabling data-driven insights that helped identify bottlenecks in the checkout flow, contributing to a 20% improvement in user retention during checkout.
- Refined the UI with a fully responsive sidebar menu and integrated Gravatar functionality, boosting user personalization features and improving engagement metrics by 15%.

TECHNICAL SKILLS

Languages:	**JavaScript(ES6+)**, TypeScript, HTML5, CSS/Sass, **Java**, Python
Frameworks and Libraries:	**React.js**, Redux, Redux-Saga, **Next.js**, Angular, D3.js, Chart.js
Tools and Platforms:	Git, GitHub, Postman, Firebase, GCP, VS Code, JIRA
Testing Tools:	Jasmine, Mocha, Karma (TDD experience)
Others:	Web Performance Optimization, PostgreSQL, Docker, Kubernetes, AWS

PROJECTS

React CSV Manager: Engineered user authentication, Responsive design featuring a sidebar menu and CSV file uploads via modal, with instant data display in a home screen table. (LINK)

Kanban Board: Developed a React-based project management tool with drag-and-drop features, responsive design, and customizable columns for seamless task organization. (LINK)

EDUCATION

Noida Institute of Engineering and Technology, Greater Noida   CGPA: 7.35
Bachelor of Technology in Information Technology   07/2018 - 07/2022

CERTIFICATIONS & ACHIEVEMENTS

- Solved 430+ LeetCode problems and 400+ technical challenges, improving algorithmic efficiency and achieving a top 10% ranking in competitive programming contests, showcasing advanced Solution development capabilities.
- Selected by KPIT for outstanding technical skills by automating data entry processes, saving the team over 15 hours per week and enhancing accuracy, resulting in increased productivity across customer support initiatives.
